Bachelor of Computer Science - CGPA 8.32

LANGUAGES

English

Malayalam

PROFILE

Aspiring to be an active member of a dynamic team that enthusiastically promotes mutual growth of the individual as well the organisation. Solution-focused problem-solver with one year of experience in software development. Highly skilled in communication, collaboration, and technical documentation.

WORK EXPERIENCE

Associate Software Engineer

Innovature Software Labs October 3rd, 2022 - Present

Immediate joiner

- In my Angular development role, I have successfully designed and implemented dynamic and responsive user interfaces, leveraging Angular's powerful features such as two-way data binding and component-based architecture.
 - In my Vue.js development role, I have created highly interactive and performant web applications. I'm proficient in Vue's reactivity system and have a strong command of Vue Router. Collaborate with other developers to update the website and create new features.
 - My background in Java has allowed me to build robust backend services and RESTful APIs to support frontend applications. I excel in Java's object-oriented programming paradigm and have experience with Spring Boot for rapid application development.
-
